

## **PRESS RELEASE**

Emmerich am Rhein, December 4, 2019

### **H. von Gimborn GmbH has to restructure**

The Emmerich based pet specialist H. von Gimborn GmbH had to release eleven employees with immediate effect for operational reasons today. The management informed the workforce on the restructuring at a staff meeting this morning. The compulsory redundancies are coordinated with H. von Gimborn's works council and are thus conducted as socially acceptable as possible.

The background of the restructuring is an unexpected drop in sales in the Chinese market in the current year. Internationally active H. von Gimborn GmbH records a continuous growth in all its core markets. The liquidity of the company is sustainably secured. The management expressly regrets the step announced today. Apart from that, management is confident that it will be able to continue the growth of recent years in 2020.

## **About H. von Gimborn GmbH**

H. von Gimborn GmbH from Emmerich is a pet specialist for more than 50 years with Biokat's brand of cat litter, and GimCat and GimDog brands for snacks for cats and dogs.

The products are being sold in more than 40 countries. The core markets are Germany, the Netherlands and Italy. In the German specialist trade, H. Gimborn GmbH is a market leader in important segments.
